

enriching teaching **unlocking learning**

**ACTIVslate**

## The ACTIVslate enriches learning environments by inspiring group interaction

The Promethean ACTIVslate complements the Promethean Collaborative Classroom Solution, providing teachers and learners with the opportunity for greater interaction with the teaching material and each other.

When using your Promethean interactive whiteboard you are no longer confined to the front of the classroom. The ACTIVslate allows you to take control of the ACTIVboard from anywhere in the room by using the ACTIVpen to write directly onto the ACTIVslate rather than on the board itself.

At any time you can hand over the ACTIVslate to a student to solve a problem or answer or write their answer on the board which stimulates their enthusiasm and encourages greater participation in the lesson.

To promote greater pupil participation each student can be given their own ACTIVslate. When using multiple slates you are able to select which ACTIVslate is in use at any one time, enabling you to maintain control of your lesson.

The ACTIVslate can be used directly with the 'radio ready' ACTIVboard 78 interactive whiteboard and is also available for use with all other Promethean interactive whiteboards, by installing the ACTIVpod upgrade. As part of the upgrade kit we also supply the latest ACTIVstudio software, which is packed with new features to help make your lesson delivery even more exciting for students.

The ACTIVslate means that, as a teacher, you are able to achieve greater interaction with your class because of the freedom to move around the room while your students benefit from the opportunity to interact with the ACTIVboard without even leaving their seats.

## About Promethean

Promethean is dedicated to making a difference to our children's education. With over 1.5 million school children in over 60 countries being taught using Promethean Collaborative Classroom solutions, we constantly strive to be at the forefront of research and development. Promethean employees pride themselves on listening to the needs of teachers and learners in order to provide the highest quality

educational solutions available.

Key to our success is that we understand that your requirements go far beyond the products themselves. We aim to build partnerships with our customers, offering free demonstrations of new products, a complete range of training packages, effective practice workshops, and a support team hot-line.

## ACTIVslate

### Specifications
