

ACTIVstudioMV

ACTIVstudioMV interactive student response system makes 'assessment for learning' opportunities a reality

Even if you are not already using a Promethean ACTIVboard you can use ACTIVstudioMV in conjunction with your existing interactive whiteboard and/or LCD projector to create interactive lessons.

Available for purchase using curriculum online e-learning credits, this groundbreaking student response system allows pupils to respond to multiple choice questions using hand-held keypads. Even reluctant learners are motivated to 'have a go'.

As a teacher, you are provided with instant feedback on your pupils understanding. The software does all the hard work for you checking the answers, eliminating the need to spend hours marking papers.

To make it easy for you to create interactive lessons ACTIVstudioMV provides a range of over 6500 pre-prepared assessment resources designed to suit National Curriculum Key Stage 1-4 requirements.

Questions can be easily adapted to the needs of individual learning groups and provide inspiration for the creation of your own resources. The 'Question Master Wizard' enables you to effortlessly write and illustrate your own tests.

ACTIVstudioMV is perfect for:

- Summative assessment in the form of end of unit tests
- Formative assessments – allowing you to check pupils understanding throughout the lesson
- Citizenship scenarios – opinions can be gathered and discussed instantly
- Collecting information about a class for data handling purposes
- Identifying strengths and weaknesses of individuals and groups
- Encouraging everyone to become involved in the learning session

However, ACTIVstudioMV is not just an assessment tool, it allows you to redress student misconceptions instantly using a plethora of teaching tools and resources.

The electronic flipchart facility enables teachers to prepare lessons, write notes during class, and deliver interactive activities while exciting focusing tools within the interactive toolkit help to create visually stimulating lessons.

About Promethean

Promethean is dedicated to making a difference to our children's education. With over 1.5 million school children in over 60 countries being taught using Promethean Collaborative Classroom solutions, we constantly strive to be at the forefront of research and development. Promethean employees pride themselves on listening to the needs of teachers and learners in order to provide the highest quality

educational solutions available.

Key to our success is that we understand that your requirements go far beyond the products themselves. We aim to build partnerships with our customers, offering free demonstrations of new products, a complete range of training packages, effective practice workshops, and a support team hot-line.

ACTIVstudioMV
