

**ACTIVtablet**

## The ideal preparation companion

The **ACTIVtablet** complements the Promethean **ACTIVboard** range by enabling teachers to prepare lessons using Promethean software away from the **ACTIVboard**, freeing the interactive whiteboard for its primary function – delivery of lessons.

Portable, precise and above all simple to use, the **ACTIVtablet** allows you to simulate use of the **ACTIVboard** during flipchart preparation and provides a tool to practice using the software features away from the board.

Also ideal for many other types of work where natural pen input is required, such as drawing and designing, the **ACTIVtablet** even includes a transparent overlay for precise tracing.

The pen supplied is cordless and battery free, preventing wires from getting in the way of your work and eliminating the need for periodic recharging. A pen holder, integrated into the tablet, means that the pen is never lost.

To prevent misuse, Promethean software is designed to disable certain software features if Promethean hardware is not detected. Use of the **ACTIVtablet** prevents a loss of software functionality occurring, enabling you to use all the features of Promethean software when preparing lessons.

The **ACTIVtablet** enables teachers to easily prepare dynamic teaching material at home or in the staff room, prior to using the **ACTIVboard** during lessons.

## About Promethean

Promethean is dedicated to making a difference to our children's education. With over 1.5 million schoolchildren in over 60 countries being taught using Promethean Collaborative Classroom solutions, we constantly strive to be at the forefront of research and development. Promethean employees pride themselves on listening to the needs of teachers and learners in order to provide the highest quality

educational solutions available.

Key to our success is that we understand that your requirements go far beyond the products themselves. We aim to build partnerships with our customers, offering free demonstrations of new products, a complete range of training packages, effective practice workshops, and a support team hot-line.

## ACTIVtablet

### Specifications

Overall dimensions	(W x D x H) 224.1 x 221 x 22.3mm
Active area	127.6 x 92.8mm
Pen	Cordless and battery-free with full mouse functionality
Cable length	1.5m
Power consumption	0.2 watts
Power supply	DC 5V, 40mA (via USB port)
Weight	332g (approx)
Resolution	1000 dots per inch; 39.41/mm allowing high degree of accuracy
Precision	+/- 5 resolution dots at 1000 dpi
Pressure levels (pen)	512 Providing a natural pen input
Maximum reading height	3mm allowing the tablet to be used for tracing over paper or documents up to 3mm thick
Interface	USB
License	With each copy of ACTIVstudio five preparation licenses are granted An additional preparation license is supplied with each ACTIVtablet
