

Marine Services Project, Jeddah Islamic Port
Quality Policy

ATCO - Marine Services and Port management Project at Jeddah Islamic Port, are committed to provide distinguished services to serve and satisfy our customers through achieving high and competitive performance levels in the marine services at the Islamic Jeddah Port, to meet the requirements of the concerned parties and to develop strategic directions and plans according to internal and external factors related to the provision of our services.

ATCO is committed to:

1. Apply quality management system and ensure continuous improvement in accordance with the requirements of ISO 9001: 2015.
2. Keep up the technological development in the field of providing marine services to ships.
3. Comply with applicable laws and regulations within the port.
4. Develop skills of its human resources through the provision of specialized training programs.
5. Set measurable goals and reviewing them periodically.

ATCO management believes that the implementation of this policy will enhance current and future levels of performance. Also, the management is responsible for sharing this policy to all internal and external parties and ensures its periodic review.
